I. INSTRUCTIONS

1. Provide Response Within 30 Days. Your response to the information requested is due within thirty (30) calendar days of receipt of this letter, unless otherwise specified by EPA in this document.
2. Answer Every Question Completely. You are required to provide a separate answer to each question and subpart of a question set forth in this Information Request. Incomplete, evasive, or ambiguous answers shall constitute failure to respond to this Information Request and may subject you to penalties as discussed in the cover letter.
3. Number Each Answer. Number each answer with the corresponding number of the question.
4. Provide Information for the Last Three Years. Answer each question with respect to the last three (3) years (January 2011 – December 2014), unless the question specifies a different time period. A response that fails to address this time period is a failure to comply with this Information Request.
5. Provide the Best Information Available. You must provide responses to the best of your ability, even if the information sought was never reduced to writing or if the written documents are no longer available. If necessary, you should seek responsive information from current and former employees and/or agents. Submission of cursory responses when other responsive information is available will be considered non-compliance with this Information Request. If you cannot provide a precise answer to any question, please approximate and state the reason for your inability to be specific.
6. Unavailability of Information. If you are unable to answer a question in a detailed and complete manner, or if you are unable to provide any of the information or documentation requested, indicate the reason for your inability to do so. If you have reason to believe there is an individual who is not a current employee or agent who may be able to provide a response to any question, state that person's name, last known address, and telephone number. Also include the reasons for your belief. If a document is unavailable, please state the reason. In addition, please provide any identifying information you have, for example, author, date, and subject matter.
7. Submit Documents with Labels Keyed to the Question. For each document produced in response to this Information Request, indicate on the document (or in some other reasonable manner) the number of the question to which it responds. If anything is deleted from a document produced in response to this Information Request, state the reason for and the subject matter of the deletion.
8. Continuing Obligation to Provide and/or to Correct Information. If additional information or documents responsive to this Information Request become known or available to you after you

respond to this Information Request, EPA hereby requests pursuant to Section 3007 of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. § 6927, that you supplement your response to EPA. Failure to supplement your response within thirty (30) days of discovering such responsive information may subject you to an enforcement action. If at any time after the submission of this response, you discover or believe that any portion of the submitted information is false or misrepresents the truth, you must notify EPA of this fact as soon as possible and provide EPA with a corrected response. If any part of the response to this Information Request is found to be false, the signatory to the response and the company may be subject to criminal prosecution.

9. Complete the Enclosed Declaration. The information provided to EPA must be accompanied by a certification from Dassault Falcon Jet Corp. signed by a responsible corporate official, that the information being provided is true, accurate, and complete. (See Attachment 3)
10. Confidential Information. The information requested herein must be provided even though Dassault Falcon Jet Corp. may contend that it includes possibly confidential information or trade secrets. You may, if you desire, assert a confidentiality claim covering part or all of the information requested, pursuant to Section 3007(b) of RCRA, 42 U.S.C. § 6927(b), and 40 C.F.R. § 2.203(b), by attaching to such information at the time it is submitted, a cover sheet, stamped or typed legend, or other suitable form of notice employing language such as "trade secret," "proprietary," or "company confidential." EPA will disclose information covered by such a claim only to the extent, and only by means, of the procedures set forth in the statutes and regulations named above. If no such claim accompanies the information when EPA receives it, it may be made available to the public by EPA without further notice to you. You should read the above cited regulations carefully before asserting a business confidentiality claim, since certain categories of information are not properly the subject of such a claim.
11. Personal Privacy Information. Personnel, medical, and similar files, the disclosure of which to the general public may constitute an invasion of privacy, should be segregated from your responses, included on a separate sheet(s), and marked as "Personal Privacy Information." You should note however, that unless prohibited by law, EPA may disclose this information to the general public without further notice to you.
12. Objections to Questions. While you may indicate that you object to certain questions in this Information Request, you must provide responsive information notwithstanding those objections. To object without providing responsive information may subject you to the penalties discussed in the cover letter.
13. Claims of Privilege. If you claim that an entire document responsive to this Information Request is a communication for which you assert that a privilege exists, identify the document and provide the basis for asserting the privilege. If you assert that a privilege exists for a portion of a document, provide the portion of the document for which you are not asserting a privilege, identify the portion of the document for which you are asserting the privilege, and provide the basis for the assertion. Please note that regardless of the assertion of any privilege, any facts

contained in the document which are responsive to the Information Request must be disclosed in your response.
